S&P 500 is a market-capitalization weighted index of common stocks and represents an unmanaged portfolio of common stocks. Dow Jones Industrial Average is an average of the stock prices of thirty large companies and represents a widely recognized unmanaged portfolio of common stocks. FTSE 3-Month U.S. Treasury Bill Index tracks the performance of U.S. Treasury bills with a remaining maturity of three months. Returns shown for these indices reflect reinvested interest and dividends as applicable, but do not reflect a deduction for fees, expenses or taxes. Indices are unmanaged and are not subject to fees and expenses. You cannot invest directly in an index.

Prior to May 30, 2012, Versatile Bond Portfolio was managed with a different investment objective and strategy. Returns prior to May 30, 2012 represent results under the prior investment strategy. Had the Portfolio been managed in accordance with the current investment objective and strategy, the results

portrayed may be different. The 30-Day SEC Standardized Yield for Versatile Bond Portfolio Class I, as of March 31, 2023, was 4.68% (unsubsidized) and 5.27% (subsidized). SEC Standardized Yield is based on a thirty-day (or one month) period and is computed by dividing the net investment income (i.e. dividends and interest earned during the period less expenses accrued for the period, net of reimbursements) per share earned during the period by the net asset value per share on the last day of the period, using the average number of shares outstanding during the period and then annualizing the result. Subsidized Yield reflects voluntary fee waiver.
